KINESIS INDUSTRIES LLC PARTNERS WITH iGO TO PROVIDE ADAPTOR TIPS FOR ITS SOLAR-AND-WIND-POWERED K3

June 25, 2009 (Scottsdale, Ariz.) – Kinesis Industries LLC, a company that develops, manufactures and distributes micro-generation renewable energy products to consumers worldwide, is partnering with iGo, Inc. (NASDAQ: IGOI) to provide interchangeable power tips with its K3 charger.

The iGo (www.iGo.com/) patented tip technology enables users to charge thousands of models of mobile devices with a single charger through the use of interchangeable power tips. The company offers a full line of power tips which will allow users to power more than 3200 mobile electronic devices by connecting the K3 using the iGo power tips.

iGo will provide Kinesis Industries LLC with a micro USB tip and a mini USB tip in the K3 package. All other tips can be purchased at the iGo website or the Kinesis Industries LLC website.

The retail price of the K3 is \$99.95 and it will be available through the company's online store at <http://www.kinesisindustries.com/store>. The retail price on iGo power tips varies from \$9.99 to \$14.99, depending on the tip. The tips can be purchased at www.iGo.com.

About Kinesis Industries LLC:

Kinesis Industries LLC was established to develop, manufacture and distribute micro-generation renewable energy products to consumers worldwide. The company's mission is to develop a wide range of products, such as the K3. The goal of Kinesis Industries LLC is to apply the technologies it has developed to other products and give each person an opportunity to be part of the energy solution.

About iGo, Inc.:

iGo develops and markets universal chargers for laptops and mobile devices such as mobile phones, Bluetooth® headsets, smartphones/PDAs, MP3 players, portable gaming devices, digital cameras and more. The company's patented tip technology enables users to charge thousands of models of mobile devices with a single charger through the use of interchangeable power tips. iGo offers a full line of chargers for charging at home, in the office, on an airplane, in the car or from batteries.
